Tech Rider

Dear sound engineer.

We are looking forward to working with you. Don't worry, we are not a loud act. Our ambition is to play as dynamic as possible. And our drummer is not one of those banging idiots. In general we get by as long as we can hear one another on stage. But if you have some time on your hands and you are one of those ambitious types, please listen to us on Soundcloud, Spotify or wherever you may find our music. This way I am sure that you will get the general idea of our preferred sound.

If you don't think the number of members adds up with the number of instruments I can tell you that the bassist plays the synth it with his toes.

Sometimes we bring along another musician. usually a second guitar, But sometimes we bring a violinist and a cellist. If this is the case we will make sure that you get the necessary information.

All the best

AstroMike Gordon
